(For reporting requests described in 769 of the Export Administration Regulations)

## NOTICE OF RIGHT TO PROTECT CERTAIN INFORMATION FROM DISCLOSURE.

The Export Administration Act permits you to protect from public disclosure information regarding the quantity, description, and value of the commodities or technical data supplied in Item 9 of this report and in any accompanying documents. *If you do not claim this protection, all of the information in your report and in accompanying documents will be made available for public inspection and copying.* You can obtain this protection by certifying, in Item 5 of the report, that disclosure of the information regarding the quantity, description and value of the commodities or technical data referred to above would place a United States company or individual involved in the report at a competitive disadvantage. If you make such a certification in Item 5, you may remove information regarding the quantity, description, and value of the commodities or technical data supplied by you from Item 9 of the public inspection copy of the report form and from the public inspection copies of the accompanying documents. The withholding of this information will be honored by the Department unless the Secretary determines that disclosure of the information would not place a United States company or individual at a competitive disadvantage or that it would be contrary to the national interest to withhold the information.
